## ROSS Door & Gate and FAAC Canada

At ROSS Door & Gate we know that helping our clients execute high quality projects begins with offering the best in class products and parts. For more than 20 years FAAC has been supplying automation solutions for residential industrial and commercial markets across Canada. ROSS Door & Gate is proud to be a leading distributor in Western Canada for all FAAC brand gate products including gate motors, access control products, telephone entry devices, replacement parts, and more.

In addition to offering our clients access to all FAAC products and parts, ROSS Door & Gate also provides in-house service on all FAAC swing and slide gate operators. This is just another way we are here to satisfy all of your door and gate needs.

## Product Details

- The FAAC Handy Kit for motorized swing gates is for use with a maximum width of 2.3 m per leaf (or 2.7 m by placing an electrical ground lock on closing)
- The linear motor style offers simple and clean lines, which can be added to any style of gate without taking away from the overall look
- Offers a dual-channel receiver, which allows the full opening of the gate for a vehicle to enter or a single wing of the gate for pedestrian traffic to pass through
- Manual opening of the gate is done via a key release in case of power failure. A battery backup option is also available

## The kit contains:

- 2, S418-24V operators
- 1, E024S Control Board w/ Enclosure
- 1, 433MHZ Plug-in Receiver
- 1, 433MHZ Quad Button Keychain Remote
- 1 Pair of Faac PhotoCells
- 1 Bus Interface Card
